Rent or Buy Equipment

We RENT and SELL portable air conditioners, dehumidifiers, and heaters, nationwide.

**BEFORE
YOU CALL
972-417-
2665 OR
888-604-
COOL
(2665)**

Please gather the following information:

1. Square footage and basic shape of the room / space (include ceiling height).
2. Type of ceiling (suspended-ceiling tiles, open warehouse) and approximate ceiling height.
3. Available electrical power (115V, 208/220, 480 single or three-phase).
4. When you need it delivered and for how many weeks/months.

THINGS TO CONSIDER BEFORE USING PORTABLE AC

There are three basic things to consider:

1. What kind of electrical power do you have available "close" to the portable air

We now rent dehumidifiers in Dallas, TX.

Portable Air Conditioners and Spot Coolers, Heaters, and Dehumidifiers

Welcome to **1st Cooling**, your 1st choice for portable and mobile air conditioners and electric heaters, construction heaters, portable power generators, spot coolers, dehumidifiers, and chillers.

Click on this link or **Products | Portable Air Cooled** menu above (look on left side of page) before you call so you can gather some required info we need to help you!

Do you need to rent temporary cooling, dehumidifying, or heating equipment? Temporary cooling can be used to dehumidify a building, dry out wet concrete, or keep your building at a comfortable temperature for workers. Rent or purchase our spot coolers for cool air while the cooling system is being serviced. Take off the heat in a restaurant by adding a little cooling in customer areas. Remove moisture from flood damage to your office or home.

Contact us to handle your next large job. Call 972-417-2665 or 888-604-2665 now to find out the details.

Temporary electric heating can be used to help prevent products your warehouse or commercial space from freezing.

NEED COOLING? NEED MOISTURE REMOVAL? Give us a call and let us help you with selecting the right cooling or dehumidifying solution for the job.

1st Cooling rents and sells spot coolers, portable air conditioners, de-humidification equipment, construction heaters, and electric heaters 7 days / week, 365 days / year, / 24 hours / day.

Do you need to dehumidify your building or construction site? Call us now to rent or purchase dehumidifiers!

We provide excellent services for renting or purchasing all of your equipment needs. We are distributors for several US-based manufacturers for your portable air conditioner needs.

Call us for assistance when you plan to buy or rent a spot cooler, evaporative cooler, or electric, direct- and indirect-fire heater. We sell Dri-Eaz, Phoneix, and Atlantic dehumidifiers. We ship anywhere in the United States, anytime.

We help facility managers, building maintenance staff, computer and data server room staff, as well as managers of retail outlets, cool and hot spots, warm and cold spots, and dry out wet

conditioner? If you need a 2Tn or larger unit, have your electrician find out what power is available. Typical power for larger units is 208/230Vac, 1-phase.

2Tn = 20Amps, 3Tn = 30Amps, 5Tn = 50Amps

2. How do you plan on removing the hot air from the space you are trying to cool? All of our units require a hot air exhaust duct. Typical duct size for up to 3Tn is 12" diameter flexible duct. You can run 25' away from the unit without degrading performance of the unit.

3. How do you plan to get rid of the condensation (water) being removed by the portable? Most units contain a 5-gallon tank you may have to dump every day. 2T and larger units may contain a pump, so you need to find something like a sink or floor drain.

Click **Portable Air Conditioner Basics** for more information.
